Product Designer | UI Designer | UX with Frontend Fluency

Profile

Product designer focused on building calm, high-trust experiences for complex digital products. Lead end-to-end design across mobile and web, from problem framing and user flows to shipped UI and frontend collaboration. Strong in design systems, interaction design, and translating high-stakes requirements into clear, usable interfaces.

Core Strengths

Product Design | UI Design | UX Strategy | Interaction Design | Design Systems | User Research | Usability Testing | Accessibility (WCAG 2.2 aware) | Responsive Web Design | Prototyping | Information Architecture | Agile Collaboration | Frontend Collaboration (React, TypeScript, Tailwind) | Webflow

Professional Experience

My Medical Data (Hälsa+) | Product Designer (UX/UI) | Jan 2025 - Present | Stockholm

Sole product designer in a cross-functional team building a health-focused mobile application and supporting web surfaces.

- Lead end-to-end design across onboarding, Medical ID, and AI-assisted chat flows
- Redesigned three core product experiences in one delivery cycle (Jan-Apr 2025)
- Designed secure sign-in and emergency access flows for trust-critical healthcare use cases
- Built and maintain a scalable design system used across product and marketing touchpoints
- Unified product and marketing under one cohesive visual language in Q1 2025
- Partner closely with developers to translate Figma designs into production-ready React and TypeScript interfaces
- Balance speed and clarity in high-stakes healthcare contexts where usability directly impacts user trust

Bontouch | UI Design Intern | Nov 2023 - May 2024 | Stockholm

Worked on product design and design system improvements across multiple client projects.

- Contributed to product improvements that increased App Store rating from 2.4 to 4.7 within five months
- Redesigned onboarding for clarity and recall; usability testing showed 5/6 participants recalled key information and 6/6 found content manageable
- Restructured design system components to introduce reusable patterns and improve implementation consistency
- Collaborated with senior designers, product owners, and engineers in a fast-paced agency environment

Oldmark Designs | UX/UI Designer (Freelance) | May 2024 - Present | Stockholm

- Design and build responsive websites in Webflow and modern frontend stacks
- Translate business goals into clear user journeys and conversion-focused page flows
- Apply frontend knowledge (HTML, CSS, Tailwind, JavaScript) to reduce friction between design and implementation
- Use AI-assisted tools to accelerate prototyping, documentation, and iteration while maintaining design quality

Education

Chas Academy | UX/UI Design with Frontend Competence | 2022 - 2024 | Stockholm

- Two-year program combining UX/UI design and frontend development, including React, interaction design, user research, usability testing, IT operations, project management, and agile methodologies.

Icon Collective | Music Production and Business | 2019 - 2020 | Los

Technical Toolkit

Design: Figma, Prototyping, Design Systems, Interaction Design

Frontend: HTML, CSS, Tailwind, JavaScript, TypeScript, React, Git

Web: Webflow, WordPress, Framer
